

KENWOOD CAT INTERFACING

This interface design by IK2BCP offers complete electrical isolation of rig and computer. Basically similar to his Yaesu design, this offers a cheap and useful alternative to any commercial offering.

SS232K - Simple and Safe RS232 interface for Kenwood radios - by IK2BCP

Figure 9: IK2BCP Kenwood interface

I can't remember where I found this anonymous design: it looks useful too.

Kenwood - PC interface built around MAX 232

Figure 10: Yet another MAX232 design
